About ...

The sound tracks have been compiled by artist Liz Crichton from autobiographical interviews with people baptized as infants at St Michael and All Angels, Ballintuim.

Each person was asked to talk about their life, what had influenced them and what had made them who they are, and what traces may they leave behind. Starting at the font of the church in Ballintuim and ending in the graveyard at Kirkmichael, the audio trail had been designed to be an immersive and emotional listening experience, stimulating a sustained time-based and ordered engagement with other people's stories.

You are invited to walk the Cateran trail from Ballintuim to Kirkmichael listening to the audio tracks, and reflecting on them in these beautiful surroundings., to perhaps discover something not just about those who were interviewed, but also about yourself.

The trail also physically and metaphorically connects these two churches. More information can be found about them and other local places of interest on the Cateran Ecomuseum website.
